

38th Meeting Sociedad Española de Farmacología

9th Meeting Sociedad Española de Farmacogenética y Farmacogenómica

19th-22nd June 2018, Santiago de Compostela

Invited societies:

38th Spanish Society of Pharmacology meeting/9th Spanish Society of Pharmacogenetics and Pharmacogenomics meeting (Provisional Program)

Tuesday June 19th 2018

14:45	Registration
15:00	<p>Scientific dissemination workshop</p> <p><i>"Communicating Science: Institutions, the Media and New Formats"</i> Dr. Alberto Aparici (University of Valencia)</p> <p><i>"Your research in one minute"</i></p>
	Plenary Room
16:00	<p>Meet the scientist session <i>"Meet the Pharmacologist"</i></p>
17:00	Opening ceremony
17:30	<p>Plenary lecture <i>"How do we more rapidly translate new genetic insights, into novel therapies for patients?"</i> Chas Bountra (University of Oxford)</p>
18:30	Reception

38th Meeting Sociedad Española de Farmacología

9th Meeting Sociedad Española de Farmacogenética y Farmacogenómica

19th-22nd June 2018, Santiago de Compostela

Invited societies:

Sociedad Española de Farmacología

Wednesday June 20th 2018

Parallel Track 1		Parallel Track 2	
Plenary lecture			
9:00	<i>“Circadian Rhythm and Molecular Clocks in Pharmacology”</i> Claudia Cavadas (University of Coimbra)		
Coffee break and poster session 1			
11:00	Plenary roundtable (Open innovation in drug discovery) Chair: Mabel Loza (University of Santiago de Compostela)		
	<i>“AstraZeneca’s Open Innovation project – lessons from the first seven years”</i> Dave Smith (Astrazeneca)		
	<i>“AlmirallShare, a crowdsourcing platform to share science and innovation”</i> Maribel Crespo (Almirall)		
	<i>“Open Innovation. The J&J approach”</i> Antonio Gómez (Janssen)		
	<i>“OIDD as a New Collaborative Model in Drug Discovery”</i> María Ángeles Martínez (Eli Lilly)		
	<i>“Discovery Partnerships with Academia; combining the biological expertise of academia with the drug discovery expertise of GSK to discover new medicines”</i> Danuta Mossakowska (GSK)		
13:00	Lunch		
14:30	Pharmacology of cardio-metabolic diseases Chair: Carlos Diéguez (University of Santiago de Compostela)	Back to the future: 50 years of spanish pharmacology. Chair: José María Palacios (Kaertor Foundation)	

38th Meeting Sociedad Española de Farmacología

9th Meeting Sociedad Española de Farmacogenética y Farmacogenómica

19th-22nd June 2018, Santiago de Compostela

Invited societies:

"New therapeutic approaches in the treatment of type 2 diabetes mellitus"

Juan Tamargo (Complutense University de Madrid)

"Targeting mitochondria in heart failure"

Jose Antonio Enríquez (CNIC)

"What is new on cardiovascular prevention 2018?"

José Ramón González Juanatey (Galician Health Service)

"1968-2018. Rise and Fall of Pharmacology?"

José María Palacios (Kaertor Foundation)

"Five decades of evolution in vascular pharmacology research"

Mercedes Salaices (Autonomous University of Madrid)

"The past to the front; and the future..., where has it gone?"

Antonio Rodríguez Artalejo (Complutense University de Madrid)

"The new Drug Regulatory Agencies and the stakeholders enter the scene. Beyond science or Regulatory Science?"

Fernando de Andrés - Trelles (Complutense University de Madrid)

"Collaboration University-Pharma Industry at Instituto Fundacion Teófilo Hernando of UAM"

Antonio García (Autonomous University of Madrid)

16:30

Coffee and posters session 1

Natural products pharmacology

Chair: Diego Cortés (University of Valencia)

"Pharmacological evaluation of the olive constituents Oleuropein and Hydroxytyrosol in cardiovascular diseases"

Ioanna Andreadou (University of Athens)

"Marine Toxins as Drug Leads"

Luis Botana (University of Santiago de Compostela)

"Combining Natural Products and Phenotypic Discovery Platforms to deliver unique novel molecules for pharmacological development"

Olga Genilloud (Medina Foundation)

Pharmacology teaching

Chair: Inmaculada Bellido (University of Málaga)

"Teaching of undergraduates in Pharmacology in Spain: Where are we? Where are we going?"

Inmaculada Bellido (University of Málaga)

"Digital technologies to teach and learn pharmacology"

Claudia Cavadas: (University of Coimbra)

T.B.A.

Vangelis Manolopoulos (University of Thrace)

"Basic and clinical pharmacology in Italy: current challenges and opportunities"

Rosaria Meli (University of Napoli)

38th Meeting Sociedad Española de Farmacología

9th Meeting Sociedad Española de Farmacogenética y Farmacogenómica

19th-22nd June 2018, Santiago de Compostela

Invited societies:

19:00	<p style="text-align: center;">Plenary lecture</p> <p style="text-align: center;">T.B.A. Thomas Griesbacher (University of Graz)</p>
20:00	<p style="text-align: center;">Tapas Route</p>
21:30	<p style="text-align: center;">Young Researcher´s Dinner</p>

38th Meeting Sociedad Española de Farmacología

9th Meeting Sociedad Española de Farmacogenética y Farmacogenómica

19th-22nd June 2018, Santiago de Compostela

Invited societies:

Thursday June 21st 2018

Parallel Track 1		Parallel Track 2	
9:00	Plenary lecture “Neutrophil breaching of venular walls in vivo: Novel insights, concepts & mechanisms” Sussan Nourshargh (Microvascular Research)		
	10:00 Coffee break and poster session 2		
11:00	Immunoinflammation <i>Chair: Oreste Gualillo (Galician Health Service)</i> “Emotional and environmental regulation of the immune and inflammatory response” Fulvio D`acquisto (University of Roehampton) “Immunometabolic Alterations in Arthritis” Ali Mobasheri (University of Surrey) “Innate immune responses in joint tissues and their pharmacological inhibition” Rodolfo Gómez (Galician Health Service)	Novel mechanisms for treating cancer <i>Chair: Rafael López (Galician Health Service)</i> “Nanomedicine: a new approach to glioblastoma therapy?” Valentín Ceña (University of Castilla-La Mancha) “Protein – protein interactions: emerging oncotargets in the RAS-ERK pathway” Piero Crespo (Institute of Biomedicine & Biotechnology of Cantabria) “Novel players involved in chromatin function as targets for anticancer therapies” Paco Real (CNIO)	
	13:00 Lunch		
14:25	<div></div> <p>“Promega screening solution with FDSS-Hamamatsu” David Castrillo (Area Manager Spain-Portugal de Hamamatsu)/María Jurado Pueyo (Application Support Manager de Promega)</p>		
14:30	CNS pharmacology, Alzheimer <i>Chair: Manel Merlos (ESTEVE)</i>	Cardiovascular Diseases <i>Chairs: Vangelis Manolopoulos and Andreas Papapetropoulos</i>	

38th Meeting Sociedad Española de Farmacología

9th Meeting Sociedad Española de Farmacogenética y Farmacogenómica

19th-22nd June 2018, Santiago de Compostela

Invited societies:

"Opioid-based strategies for the treatment of chronic pain"

Sara González (University of Miguel Hernández)

"From bedside to bench to clinic trials: identifying new therapeutic targets for schizophrenia treatment"

Benedicto Crespo (University of Cantabria)

"Pharmacogenomics regulated by Epigenetics"

Noam Shomrom (Tel Aviv University)

"Basic science and translational potential of hydrogen sulfide in the cardiovascular system"

Andreas Papapetropoulos (National and Kapodistrian University of Athens)

"Ischemic Conditioning of the Myocardium: Targets, Comorbidities and Translational Studies"

Ioanna Andreadou (National and Kapodistrian University of Athens)

"Pharmacogenomics and Personalised Medicine for drugs of the Cardiovascular system"

Vangelis Manolopoulos (National and Kapodistrian University of Athens)

Parallel Track 1	Parallel Track 2	Parallel Track 3 / SEFF Meeting
16:30	Coffee and posters session 2	
16:45	Coffee and posters session 2	SEFF Opening
17:00	Plenary lecture <i>Chair: Adrián Llerena (University of Extremadura)</i> "European initiatives on Pharmacogenetics and Personalized Medicine" Professor Vangelis Manolopoulos (University of Thrace)	
18:00 - 19:00	SEF Assembly	SEFF Assembly
21:00	Gala Dinner	

38th Meeting Sociedad Española de Farmacología

9th Meeting Sociedad Española de Farmacogenética y Farmacogenómica

19th-22nd June 2018, Santiago de Compostela

Invited societies:

Parallel Track 1		Parallel Track 2	
9:00	GPCR pharmacology <i>Chair: Jose Manuel Brea (USC)</i> T.B.A. Xavier Leroy (ITEos Therapeutics) <i>“Illuminating the adenosine A2A-dopamine D2 receptor oligomer in parkinson’s disease”</i> Victor Fernández Dueñas (University of Barcelona) <i>“Quantifying Biased Agonism at G Protein-Coupled Receptors”</i> Jesús Giraldo (Universidad Autónoma de Barcelona) <i>“A molecular pharmacology insight of 5-HT2A receptor pharmacogenomics based on the H452Y single nucleotide polymorphism”</i> Juan López-Giménez : CSIC	Rare diseases pharmacology <i>Chair: Ignacio Baanante (Institute of Health Carlos III)</i> <i>“Drug repurposing in Fanconi anemia therapeutics”</i> Jordi Surralles (Sant Pau Hospital, CIBERER) <i>“Axopathy and mitochondria in rare genetic neuropathies and common neurodegenerative diseases”</i> Francisco Palau (Sant Joan de Déu Hospital, CIBERER) <i>“The evolving orphan drug development model”</i> Ana Mingorance (Dravet Syndrome Foundation)	
	11:00 Coffee break		
	11:30 Plenary lecture		
	<i>“The nonalcoholic fatty liver disease (NAFLD) conundrum: how to define it?”</i> José María Mato (CICbioGUNE and CICbioMAGUNE)		
	12:30 SEF meeting Closing ceremony		
13:30 Lunch			

38th Meeting Sociedad Española de Farmacología

9th Meeting Sociedad Española de Farmacogenética y Farmacogenómica

19th-22nd June 2018, Santiago de Compostela

Invited societies:

Friday June 22nd 2018

Parallel Track 3: SEFF Meeting

Symposium I: Pharmacogenetic implementation in the Spanish Health System

Part I: Psychiatric diseases

Chairs: *M^a Jesús Arranz (Santa Creu i Sant Pau Hospital)*

"To evaluate the effectiveness of pharmacogenetic (PGx) testing in the selection of drug therapies in patients with major depressive disorder (MDD)"

9:00

Dr. Victor Perez (Hospital del Mar, Barcelona)

"Pharmacogenetic intervention improves the safety profile of antipsychotic treatments"

Dra. Rosa Catalán (Hospital Clinic, Barcelona)

Symposium I: Pharmacogenetic implementation in the Spanish Health System

Part II: Transplantation

Chairs: *Salvador Aliño (La Fe Hospital)*

"Pharmacogenetics of transplantation: Clinical implications"

10:00

María José Herrero Cervera (IIS La Fe, Hospital La Fe)

"Pharmacogenetics-based personalization of busulfan dose in children undergoing hematopoietic stem-cell transplantation"

Patricia Huezo-Díaz Curtis (PhD) (University of Geneva)

11:00

Coffee break and poster session 3

38th Meeting Sociedad Española de Farmacología

9th Meeting Sociedad Española de Farmacogenética y Farmacogenómica

19th-22nd June 2018, Santiago de Compostela

Invited societies:

Friday June 22nd 2018

Parallel Track 3: SEFF Meeting

Symposium I: Pharmacogenetic implementation in the Spanish Health System

Part III: Cardiovascular diseases

Chairs: Luis López, Francisco Abad

"Pharmacogenetics in cardiovascular diseases"

11:30

Alberto Borobia (La Paz Hospital, Madrid)

"Application of massive sequencing in cardiology"

Raquel Yotti (Gregorio Marañón Hospital, Madrid)

Symposium I: Pharmacogenetic implementation in the Spanish Health System

Part IV: Oncology

Chairs: Anna González-Neira (CNIO), Cristina Rodríguez-Antona (CNIO)

"Pharmacogenetic markers for toxicity prediction in oncological treatment"

12:30

Luis Lopez-Tumores (Gregorio Marañón Hospital, Madrid)

"Analysis of biomarkers in solid tumors using Next Generation Sequencing gene panels"

Ana Patiño: (Navarra University Clinic)

13:30

Lunch

38th Meeting Sociedad Española de Farmacología

9th Meeting Sociedad Española de Farmacogenética y Farmacogenómica

19th-22nd June 2018, Santiago de Compostela

Invited societies:

Friday June 22nd 2018

Parallel Track 3: SEFF Meeting

Symposium II: Development of quality standards for pharmacogenetic diagnosis in Spain

Chairs: Ángel Carracedo (University of Santiago), Miquel Taron (Institute of Biomedicine of Seville)

14:30

“Regulatory aspects and review of the technical sheets of medicines with PGx indications”

Adrián Llerena (University of Extremadura)

Symposium II: Development of quality standards for pharmacogenetic diagnosis in Spain

Chairs: Ángel Carracedo (University of Santiago de Compostela), Miquel Taron (Institute of Biomedicine of Seville)

15:00

“Implementation of quality standards for pharmacogenetic diagnosis in Spain: how, when and why?”

Angel Carracedo (University of Santiago de Compostela)

Symposium II: Development of quality standards for pharmacogenetic diagnosis in Spain

Chairs: Ángel Carracedo (University of Santiago de Compostela), Miquel Taron (Institute of Biomedicine of Seville)

15:45

“Implementation of quality standards for pharmacogenetic diagnosis in Spain: design of the first proficiency testing”

María Isidoro (University Hospital Salamanca)

16:30

Roundtable-discussion

16:45

SEFF Closing Ceremony
